

BASIC MODULE

\$2.99

per student, per annum

# Calendar Module

## What does it do?

### Centralised Calendar

Display school activities and events on one centralised calendar

### Integrations

Integrate the calendar into your school website or parent / student portals, and sync events into your personal Outlook calendar

### Assessment Planning

Provide warning notifications if students are booked into too many assessments in a day

## Can the calendar sync with our existing calendar system?

Certainly! Our calendar seamlessly syncs with any Office 365 calendar, offering effortless integration. Additionally, you can export events to your personal calendar for enhanced accessibility and convenience.

## Can certain calendars be visible or hidden depending on access permissions?

Absolutely! Our calendar not only consolidates multiple calendars into a single view but also provides administrators with the flexibility to control access. You can easily restrict or make certain calendar categories private, ensuring that calendars like Executive Team or Staff Calendars are exclusively accessible to the relevant individuals.
